

Employee of the Month

Congratulations to Milton Benston, the December 2015 Employee of the Month!

Milton is an Automotive Mechanic, located at Fleet Management's Fallsway Substation. He has worked for DGS 12 ½ years, starting as a Work Study Student in June 2002. He became a Motor Equipment Apprentice in June 2003 and was promoted to Motor Equipment Mechanic in October 2006. In October 2008 his title changed to its current incarnation.

Milton's coworkers describe him as a "great person" who is knowledgeable, dedicated, and thoughtful. Many said that Milton is a hard worker and team player. One member of the Fallsway team started working with Milton "when he was 17 years old." He has watched him grow into becoming a good mechanic.

When Director Sharkey arrived to give the award, Milton was running late because he was out on a call. When he arrived, he was towing a police vehicle.

All "Employee of the Month" winners receive a certificate and a surprise gift. They are also eligible for the DGS "Employee of the Year" award, which is annually announced in the last quarter, by the Director.

Nominate a co-worker for Employee of the Month – TODAY!

The DGS Employee of the Month nominations may be submitted in person using the handy ballot boxes placed throughout DGS locations or via email at DGS_HR@baltimorecity.gov.

Recipients are selected by a Customer Service Committee representing each of the four DGS divisions.

Should you have questions regarding the Employee of the Month process please call Laurie Blumberg at (410) 396-4600.

Follow DGS on:

And an Enjoyable New Year! DGS H.R. is partnering with DHR to bring our employees exciting training opportunities in 2016, including Future Leaders 2016, customer service training, the Supervisory Summit, and much more on policies and procedures!

DGS Job Openings

Automotive Maintenance Worker – 12/15

An Automotive Maintenance Worker performs safety checks on vehicles and assists mechanics in performing installation, maintenance, and repair work on cars and trucks.

Automotive Mechanic – 12/20

An Automotive Mechanic performs a wide range of diagnostic, installation, maintenance, and repair work on a variety of automotive, heavy truck, heavy equipment, and other mechanical equipment.

Construction Mechanical Inspector I – 12/24

A Construction Mechanical Inspector I conducts on-site inspections of mechanical installations in new construction or renovation projects for contract and specification compliance. Minimum requirements include graduation from an accredited high school or possession of a GED certificate and three years of experience in mechanical installation, maintenance or inspection.

To apply for a position, please create an account on www.governmentjobs.com. The website also has a Job Notification section that sends reminders when positions are posted with application deadlines.

DGS: "Giving our Best to Baltimore!"

Congratulations!
